## [eCAS](#)

RRID:CVCL\_7189

Type: Cell Line

### Proper Citation

RRID:CVCL\_7189

### Cell Line Information

**URL:** [https://web.expasy.org/cellosaurus/CVCL\\_7189](https://web.expasy.org/cellosaurus/CVCL_7189)

**Proper Citation:** RRID:CVCL\_7189

**Description:** Cell line eCAS is a Cancer cell line with a species of origin Mus musculus (Mouse)

**Sex:** Male

**Disease:** Mouse leukemia

**Defining Citation:** [PMID:14700538](#), [PMID:17686531](#), [PMID:29844485](#)

**Comments:** Miscellaneous: Conversion of STR profile from fragment lengths to alleles value from personal communication of Wigger, Georges., Problematic cell line: Misidentified/contaminated. Originally thought to be of horse origin but found to be a mouse RAW 264.7 derivative (PubMed=29844485). Originally thought to be established by telomerase transfection of bone marrow cells from two 10 year old horses..

**Category:** Cancer cell line

**Organism:** Mus musculus (Mouse)

**Name:** eCAS

**Synonyms:** e-CAS

**Cross References:** Wikidata:Q54831920

**ID:** CVCL\_7189

**Hierarchy:** cvcl\_0493

**Record Creation Time:** 20220427T215828+0000

## Ratings and Alerts

No rating or validation information has been found for eCAS.

**Warning:** Problematic cell line: Misidentified/contaminated. Originally thought to be of horse origin but found to be a mouse RAW 264.7 derivative (PubMed=29844485). Originally thought to be established by telomerase transfection of bone marrow cells from two 10 year old horses.

Miscellaneous: Conversion of STR profile from fragment lengths to alleles value from personal communication of Wigger, Georges., Problematic cell line:

Misidentified/contaminated. Originally thought to be of horse origin but found to be a mouse RAW 264.7 derivative (PubMed=29844485). Originally thought to be established by telomerase transfection of bone marrow cells from two 10 year old horses..
