Proper Citation: RRID:CVCL_B0A7

Description: Cell line U2OS DR-GFP is a Cancer cell line with a species of origin Homo sapiens (Human)

Sex: Female

Disease: Osteosarcoma

Comments: Characteristics: Can be used to monitor homologous recombination efficiency using the DR-GFP reporter (ATCC=CRL-3455)., Characteristics: Transfected with a DR-GFP reporter construct. The DR-GFP construct which contains a tandem repeat of two inactive genes coding for EGFP. After transfection with an expression vector coding for the I-SceI enzyme, recombination induced by the cleavage of the I-SceI site recreates a functional EGFP., Population: Caucasian.

Category: Cancer cell line

Organism: Homo sapiens (Human)

Name: U2OS DR-GFP

Synonyms: U-2 OS DRGFP

Cross References: ATCC:CRL-3455, Wikidata:Q108821411

ID: CVCL_B0A7

Hierarchy: cvcl_0042

Record Creation Time: 20220427T221640+0000

Record Last Update: 20260905T182616+0000

Ratings and Alerts

No rating or validation information has been found for U2OS DR-GFP.

No alerts have been found for U2OS DR-GFP.
