NOK-SI

RRID:CVCL_BW57

Type: Cell Line

Proper Citation

RRID:CVCL_BW57

Cell Line Information

URL: https://web.expasy.org/cellosaurus/CVCL_BW57

Proper Citation: RRID:CVCL_BW57

Description: Cell line NOK-SI is a Spontaneously immortalized cell line with a species of origin Homo sapiens (Human)

Sex: Male

Defining Citation: [PMID:20463891](#), [PMID:25275298](#)

Comments: Population: Caucasian., Part of: OPC-22 oral and pharyngeal cancer cell line panel., Problematic cell line: Contaminated. Shown to be a HaCaT derivative (ICLAC). Originally thought to originate from normal oral keratinocytes from a female donor..

Category: Spontaneously immortalized cell line

Organism: Homo sapiens (Human)

Name: NOK-SI

Synonyms: NOKSI, NOKsi, Normal Oral Keratinocytes-Spontaneously Immortalized

Cross References: Cosmic:2296312, Wikidata:Q54930891

ID: CVCL_BW57

Hierarchy: cvcl_0038

Record Creation Time: 20220427T221346+0000

Record Last Update: 20260905T181929+0000

Ratings and Alerts

No rating or validation information has been found for NOK-SI.

Warning: Problematic cell line: Contaminated. Shown to be a HaCaT derivative (ICLAC). Originally thought to originate from normal oral keratinocytes from a female donor.

Registration: International Cell Line Authentication Committee, Register of Misidentified Cell Lines; ICLAC-00589.

Population: Caucasian., Part of: OPC-22 oral and pharyngeal cancer cell line panel., Problematic cell line: Contaminated. Shown to be a HaCaT derivative (ICLAC). Originally thought to originate from normal oral keratinocytes from a female donor..
