ABCA8 antibody

RRID:AB_10720038

Type: Antibody

Proper Citation

GeneTex Cat# GTX88700, RRID:AB_10720038

Antibody Information

URL: http://antibodyregistry.org/AB_10720038

Proper Citation: GeneTex Cat# GTX88700, RRID:AB_10720038

Target Antigen: ABCA8 antibody

Host Organism: goat

Clonality: polyclonal

Comments: Discontinued; manufacturer recommendations: ELISA; Preliminary experiments gave an approx. 50-55kDa band in Human Brain (Cerebellum, Cerebral Cortex, Frontal Cortex), Heart, Skeletal Muscle and Testis lysates after 0.3µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 179kDa according to NP_009099.1. The 50-55kDa band was successfully blocked by incubation with the immunizing peptide. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported? This antibody is expected to cross-react with the highly similar Human ABCA9, since the immunizing peptide differs from ABCA9 with only one residue (F8). ELISA

Antibody Name: ABCA8 antibody

Description: This polyclonal targets ABCA8 antibody

Target Organism: human

Antibody ID: AB_10720038

Vendor: GeneTex

Catalog Number: GTX88700

Record Creation Time: 20250819T221836+0000

Ratings and Alerts

No rating or validation information has been found for ABCA8 antibody.

Warning: Discontinued at GeneTex
