EDD1 / HYD antibody

RRID:AB_10722730

Type: Antibody

Proper Citation

GeneTex Cat# GTX89818, RRID:AB_10722730

Antibody Information

URL: http://antibodyregistry.org/AB_10722730

Proper Citation: GeneTex Cat# GTX89818, RRID:AB_10722730

Target Antigen: EDD1 / HYD antibody

Host Organism: goat

Clonality: polyclonal

Comments: Discontinued; manufacturer recommendations: ELISA. Approx. 35-40kDa band observed in Human Testis, Human Skeletal Muscle, A549 and A431 lysates at 0.5-1ug of primary, this band was successfully blocked by incubation with the immunising peptide. Please note that the band we observe is different from the predicted size of approx. 322kDa according to NP_056986 (furthermore, our SDS PAGE/western blotting protocol is not optimized for detection of proteins as large as the predicted). Currently we cannot find an explanation for this in the literature. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any splice variants/modified forms been reported?; ELISA

Antibody Name: EDD1 / HYD antibody

Description: This polyclonal targets EDD1 / HYD antibody

Target Organism: rat, porcine, cow, pig, mouse, bovine, human

Antibody ID: AB_10722730

Vendor: GeneTex

Catalog Number: GTX89818

Record Creation Time: 20250820T023611+0000

Record Last Update: 20250820T140141+0000

Ratings and Alerts

No rating or validation information has been found for EDD1 / HYD antibody.

Warning: Discontinued at GeneTex
