Proper Citation: GeneTex Cat# GTX88581, RRID:AB_10722074

Target Antigen: ANGPTL3 antibody

Host Organism: goat

Clonality: polyclonal

Comments: Discontinued; manufacturer recommendations: ELISA; Preliminary experiments gave bands at approx 37 kDa and 24 kDa in Human Liver and Kidney lysates after 0.3µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the bands we observe in these lysates given the calculated size of 53.6 kDa according to NP_055310.1. Both detected bands were successfully blocked by incubation with the immunizing peptide (and BLAST results with the immunizing peptide sequence did not identify any other proteins to explain the additional bands). We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported? ELISA.

Antibody Name: ANGPTL3 antibody

Description: This polyclonal targets ANGPTL3 antibody

Target Organism: human

Antibody ID: AB_10722074

Vendor: GeneTex

Catalog Number: GTX88581

Record Creation Time: 20250819T220125+0000

Ratings and Alerts

No rating or validation information has been found for ANGPTL3 antibody.

Warning: Discontinued at GeneTex
