Fibronectin-human-mutated N-terminal (N) O-Glycosylation site

RRID:Addgene_120404
Type: Plasmid

Proper Citation

RRID:Addgene_120404

Plasmid Information

URL: http://www.addgene.org/120404

Proper Citation: RRID:Addgene_120404

Insert Name: Fibronectin

Organism: Homo sapiens

Bacterial Resistance: Kanamycin

Defining Citation: PMID:27427791

Vector Backbone Description: Backbone Size:2868; Vector Backbone:pMAX-Cloning; Vector Types:Mammalian Expression; Bacterial Resistance:Kanamycin

Comments: Clone pFN 1. O-Gly_sp_2. It was used to study the role of the various fibronectin isoforms in transfected eucaryotic cells and to produce the isoforms

Plasmid Name: Fibronectin-human-mutated N-terminal (N) O-Glycosylation site

Relevant Mutation: Containing complete variable region with a mutation from threonine to serine at position 278/279 at N-terminal O-Glycosylation site to prevent O-Glycosylation

Record Creation Time: 20220422T221629+0000

Record Last Update: 20260902T041443+0000

Ratings and Alerts

No rating or validation information has been found for Fibronectin-human-mutated N-terminal (N) O-Glycosylation site.

No alerts have been found for Fibronectin-human-mutated N-terminal (N) O-Glycosylation site.
