Fibronectin-human-mutated V1 O-Glycosylation site

RRID:Addgene_120406

Type: Plasmid

Proper Citation

RRID:Addgene_120406

Plasmid Information

URL: <http://www.addgene.org/120406>

Proper Citation: RRID:Addgene_120406

Insert Name: Fibronectin

Organism: Homo sapiens

Bacterial Resistance: Kanamycin

Defining Citation: [PMID:27427791](#)

Vector Backbone Description: Backbone Size:2868; Vector Backbone:pMAX-Cloning; Vector Types:Mammalian Expression; Bacterial Resistance:Kanamycin

Comments: Clone pFN 3. O-Gly_sp_1. It was used to study the role of the various fibronectin isoforms in transfected eucaryotic cells and to produce the isoforms.

Plasmid Name: Fibronectin-human-mutated V1 O-Glycosylation site

Relevant Mutation: Contains complete variable region with a mutation from threonine to serine at position 1934 at V1 O-Glycosylation site to prevent O-Glycosylation

Record Creation Time: 20220422T221629+0000

Record Last Update: 20260902T041443+0000

Ratings and Alerts

No rating or validation information has been found for Fibronectin-human-mutated V1 O-Glycosylation site.

No alerts have been found for Fibronectin-human-mutated V1 O-Glycosylation site.
