pLOX-Ttag-iresTK

RRID:Addgene_12246

Type: Plasmid

Proper Citation

RRID:Addgene_12246

Plasmid Information

URL: <http://www.addgene.org/12246>

Proper Citation: RRID:Addgene_12246

Insert Name: SV40 Large T, HSV1-TK

Organism: Simian virus

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:11020357](#)

Vector Backbone Description: Backbone Size:12290; Vector Backbone:pHR'; Vector Types:Mammalian Expression, Lentiviral, Cre/Lox; Bacterial Resistance:Ampicillin

Comments: CMV promoter is upstream of the bicistronic coding cassette with SV40-Large T and HSV1-TK. During reverse transcription U3 region of the 3'LTR, with LoxP, is duplicated; LoxP sites end up flanking the genome of the integrated provirus. Upon expression of Cre, provirus is excised. Please note that the full sequence for this plasmid is approximated and not fully verified--there will be discrepancies between Addgene's quality control sequence and the theoretical sequence from the depositor. Please visit the Trono lab <http://tronolab.epfl.ch> for cloning strategies, protocols, publications, and more.

Plasmid Name: pLOX-Ttag-iresTK

Relevant Mutation: LoxP in 3' LTR.

Record Creation Time: 20220422T221640+0000

Record Last Update: 20260815T080344+0000

Ratings and Alerts

No rating or validation information has been found for pLOX-Ttag-iresTK.

No alerts have been found for pLOX-Ttag-iresTK.
