pPEE28

RRID:Addgene_128368

Type: Plasmid

Proper Citation

RRID:Addgene_128368

Plasmid Information

URL: <http://www.addgene.org/128368>

Proper Citation: RRID:Addgene_128368

Insert Name: Noureothricin (NAT)

Organism: Synthetic

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:31220607](#)

Vector Backbone Description: Backbone Marker:Stratagene; Vector Backbone:pBlueScript II SK(-); Vector Types:Unspecified; Bacterial Resistance:Ampicillin

Comments: Contains the Safe Haven Site 4 sequence (CNAG_06526 - CNAG_06527) in the backbone of pBluescript II SK- to enable integration into the C. neoformans genome via homologous recombination, in addition to a linker sequence containing multiple rare-cutting restriction enzyme cut sites to facilitate linearization prior to biolistic transformation. Importantly, as the Safe Haven and marker fragments were inserted into the pBluescript II SK- backbone in place of the f1 origin of replication, each plasmid still retains the original multicloning site and blue/white screening capabilities. Linearization of the safe haven constructs is made possible by the inclusion of a linker containing cut sites for three rare cutting restriction enzymes, BaeI, AscI and PacI. To use the vectors, the gene of interest is subcloned into the standard pBluescript II SK- multicloning site.

Plasmid Name: pPEE28

Record Creation Time: 20220422T221714+0000

Record Last Update: 20260815T080446+0000

Ratings and Alerts

No rating or validation information has been found for pPEE28.
