pSLAX13 Flag (CT#231)

RRID:Addgene_14026

Type: Plasmid

Proper Citation

RRID:Addgene_14026

Plasmid Information

URL: <http://www.addgene.org/14026>

Proper Citation: RRID:Addgene_14026

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:9608511](#)

Vector Backbone Description: Backbone Size:3000; Vector Backbone:pSLAX13; Vector Types:Bacterial Expression; Bacterial Resistance:Ampicillin

Comments: pSlax13 is a convenient entry vector for cloning into the pRCAS BP vectors. Clone your gene into pSlax13, then cut with ClaI to move your gene into pRCAS BP. pSlax13 has the advantage of allowing all the cloning steps to be carried out in a relatively small, high copy number vector. pSlax13 was constructed by placing a ClaI adapter fragment into a Bluescript derivative. See author's map for information on the multiple cloning site. For more information on the RCAS system, visit <http://home.ncifcrf.gov/hivdrp/RCAS/index.html>

Plasmid Name: pSLAX13 Flag (CT#231)

Record Creation Time: 20220422T221810+0000

Record Last Update: 20260902T042007+0000

Ratings and Alerts

No rating or validation information has been found for pSLAX13 Flag (CT#231).

No alerts have been found for pSLAX13 Flag (CT#231).
