pMT-EGFP-CTAP_J

RRID:Addgene_146648

Type: Plasmid

Proper Citation

RRID:Addgene_146648

Plasmid Information

URL: <http://www.addgene.org/146648>

Proper Citation: RRID:Addgene_146648

Insert Name: EGFP

Organism: Other

Bacterial Resistance: Ampicillin

Vector Backbone Description: Vector Backbone:pMK33-NTAP; Vector Types:Insect Expression; Bacterial Resistance:Ampicillin

Comments: pMK33-NTAP and pMK33-CTAP vectors are designed for making protein fusions tagged with the TAP tag and for generating stable *Drosophila* cell lines under Hygromycin selection. TAP fusions are inducible with copper sulfate. The parental vector, pMK33 (pMt/Hy), was created by Michael Koelle. Plasmids from this collection were made available to the research community and donated after the lab closed. Please note that the sequence provided by the depositing laboratory may be theoretical/predicted or based on Sanger sequencing results. There may be discrepancies between sequencing results obtained by Addgene and the depositor sequence. If an Addgene verified sequence is not available, please contact help@addgene.org before placing your order to request that our lab fully sequence the plasmid.

Plasmid Name: pMT-EGFP-CTAP_J

Record Creation Time: 20230125T080239+0000

Record Last Update: 20260815T082459+0000

Ratings and Alerts

No rating or validation information has been found for pMT-EGFP-CTAP_J.

No alerts have been found for pMT-EGFP-CTAP_J.
