M18 pCS-twvh-nBeta gal Vec

RRID:Addgene_17155

Type: Plasmid

Proper Citation

RRID:Addgene_17155

Plasmid Information

URL: <http://www.addgene.org/17155>

Proper Citation: RRID:Addgene_17155

Insert Name: twvh promoter

Organism: Danio rerio

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:9314535](#)

Vector Backbone Description: Backbone Size:0; Vector Backbone:pCS-NBeta gal;
Vector Types;; Bacterial Resistance:Ampicillin

Comments: Parent vector: pCS-twvh-nBeta gal. Insert: twvh promoter (5.2 Kb), nBeta gal (3 Kb) Plasmid History: Source: zebrafish. Notes for Use: To make the twvh promoter into a convenient expression vector for expressing heterologous cDNAs, the BamHI site upstream of the twvh promoter in the plasmid pCS-twvh-beta -gal was deleted. The resulting plasmid, which retains the BamHI site between the promoter and the beta -gal, was isolated and designated pCS-twvh-beta -gal-vec. Genes of interest can be cloned into the BamHI and XhoI sites of this vector by replacing the beta -gal sequence. Citation: Du et al., 1997, J. Cell Biology.

Plasmid Name: M18 pCS-twvh-nBeta gal Vec

Record Creation Time: 20220422T221957+0000

Record Last Update: 20260815T081017+0000

Ratings and Alerts

No rating or validation information has been found for M18 pCS-twvh-nBeta gal Vec.

No alerts have been found for M18 pCS-twHH-nBeta gal Vec.
