pBABE-puro-GFP-progerin

RRID:Addgene_17663

Type: Plasmid

Proper Citation

RRID:Addgene_17663

Plasmid Information

URL: <http://www.addgene.org/17663>

Proper Citation: RRID:Addgene_17663

Insert Name: GFP-D50 lamin A

Organism: Homo sapiens

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:18311132](#)

Vector Backbone Description: Backbone Size:5200; Vector Backbone:pBABE-puro; Vector Types:Mammalian Expression, Retroviral; Bacterial Resistance:Ampicillin

Comments: This vector was generated by cloning the NheI–BamHI fragment from pEGFP–D50 lamin A into the BamHI site of the pBABE-puro vector after filling of the ends. This plasmid exists as a dimer in our stock. Dimerization often does not impact plasmid function, but may reduce transformation efficiencies. If you need the monomeric version, you could try linearizing, gel extracting, re-ligating, and transforming the plasmid.

Plasmid Name: pBABE-puro-GFP-progerin

Relevant Mutation: Delta 50

Record Creation Time: 20220422T222020+0000

Record Last Update: 20260815T081100+0000

Ratings and Alerts

No rating or validation information has been found for pBABE-puro-GFP-progerin.

No alerts have been found for pBABE-puro-GFP-progerin.

Data and Source Information
