T7-RelA(S276A)

RRID:Addgene_24153

Type: Plasmid

Proper Citation

RRID:Addgene_24153

Plasmid Information

URL: <http://www.addgene.org/24153>

Proper Citation: RRID:Addgene_24153

Insert Name: RelA

Organism: Homo sapiens

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:16135789](#)

Vector Backbone Description: Backbone Marker:Matthias et al, Nucleic Acid Research (1989).; Backbone Size:5120; Vector Backbone:modified pEV3S (pLG-033); Vector Types:Mammalian Expression; Bacterial Resistance:Ampicillin

Comments: FOr more details for this expression construct as well as other mutants, please contact Dr Lin-Feng CHen (lfchen@life.illinois.edu)

Plasmid Name: T7-RelA(S276A)

Relevant Mutation: S276A

Record Creation Time: 20220422T222108+0000

Record Last Update: 20260815T081228+0000

Ratings and Alerts

No rating or validation information has been found for T7-RelA(S276A).

No alerts have been found for T7-RelA(S276A).

Data and Source Information

Source: [Addgene](#)

Usage and Citation Metrics

We found 2 mentions in open access literature.

Listed below are recent publications. The full list is available at [RRID](#) .

Field JT, et al. (2018) Misoprostol regulates Bnip3 repression and alternative splicing to control cellular calcium homeostasis during hypoxic stress. Cell death discovery, 4, 37.

Kwon HJ, et al. (2016) Stepwise phosphorylation of p65 promotes NF- κ B activation and NK cell responses during target cell recognition. Nature communications, 7, 11686.
