pcDNA3-CD68 promoter/enhancer

RRID:Addgene_34837

Type: Plasmid

Proper Citation

RRID:Addgene_34837

Plasmid Information

URL: <http://www.addgene.org/34837>

Proper Citation: RRID:Addgene_34837

Insert Name: CD68 promoter/enhancer -680/+140

Organism: Homo sapiens

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:11907098](#)

Vector Backbone Description: Backbone Marker:Invitrogen; Vector Backbone:pcDNA3; Vector Types:Mammalian Expression; Bacterial Resistance:Ampicillin

Comments: The CD68 promoter/enhancer in this construct consists of ~680bp 5' of the ATG and the 83bp first intron of human CD68. Please note that Addgene's sequencing results found a single nucleotide deletion at bp# 440 when compared to the full plasmid sequence provided by the depositor. The depositing scientist states that it is probably a polymorphism in the promoter and is not a concern for the function of the plasmid.

Plasmid Name: pcDNA3-CD68 promoter/enhancer

Record Creation Time: 20220422T222148+0000

Record Last Update: 20260815T081403+0000

Ratings and Alerts

No rating or validation information has been found for pcDNA3-CD68 promoter/enhancer.

No alerts have been found for pcDNA3-CD68 promoter/enhancer.

Data and Source Information
