pRR-AR

RRID:Addgene_73045

Type: Plasmid

Proper Citation

RRID:Addgene_73045

Plasmid Information

URL: <http://www.addgene.org/73045>

Proper Citation: RRID:Addgene_73045

Insert Name: Androgen receptor

Organism: Homo sapiens

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:25056312](#)

Vector Backbone Description: Backbone Marker:PMID: 8800671; Vector Backbone:pRW95-3; Vector Types:Yeast Expression; Bacterial Resistance:Ampicillin

Comments: Please note that there are several discrepancies between Addgene's quality control sequences and the depositor's sequence. The depositor noted that these discrepancies do NOT affect plasmid function. This plasmid is a non-integrative plasmid that maintains approximately a single copy per cell and was used to express the glyceraldehyde phosphate dehydrogenase (GPD) driven androgen receptor gene. pRR-AR-5Z, a gift from Charles Miller (Addgene plasmid # 23058) was modified by excising the 5RE-cyc and lacZ portions using the BlnI and AatII restriction enzymes to create pRR-AR.

Plasmid Name: pRR-AR

Relevant Mutation: please see depositor comments below

Record Creation Time: 20220422T222448+0000

Record Last Update: 20260815T081925+0000

Ratings and Alerts

No rating or validation information has been found for pRR-AR.

No alerts have been found for pRR-AR.
