Proper Citation: RRID:Addgene_139281

Insert Name: Id1

Organism: Mus musculus

Bacterial Resistance: Ampicillin

Vector Backbone Description: Backbone Marker:Sen Wu, Capecchi laboratory; Vector Backbone:pWS-TK6; Vector Types:Mammalian Expression, Mouse Targeting; Bacterial Resistance:Ampicillin

Comments: Homology arms subcloned by recombineering from a clone of RPCI-23 C57BL/6J mouse genomic DNA library. Please make sure the plasmid DNA preparation is pure by gel electrophoresis before linearizing for an electroporation. Please note there are a few ambiguous bases in Addgene's NGS result. This is due to repetitive A-G region. Depositor confirms these bases do not affect plasmid function.
