pOpen-T4gene30

RRID:Addgene_165554

Type: Plasmid

Proper Citation

RRID:Addgene_165554

Plasmid Information

URL: <http://www.addgene.org/165554>

Proper Citation: RRID:Addgene_165554

Insert Name: T4-DNA Ligase

Organism: Other

Bacterial Resistance: Ampicillin

Vector Backbone Description: Vector Backbone:pBuild; Vector Types:Synthetic Biology; Bacterial Resistance:Ampicillin

Comments: Ligase derived from T4 bacteriophage expressed in the early stage of lytic development. Has been implicated in T4 DNA synthesis and genetic recombination. May also play a role in T4 DNA repair. The plasmids in the Open Enzyme collection contain genetic parts and are not functional by themselves. Researchers can clone these enzymes into an expression vector of their choice and then transform into E. coli bacteria for expression and purification. Additional information can be found at <https://www.addgene.org/depositor-collections/open-enzyme/>.

Plasmid Name: pOpen-T4gene30

Record Creation Time: 20220422T221934+0000

Record Last Update: 20260815T080930+0000

Ratings and Alerts

No rating or validation information has been found for pOpen-T4gene30.
