### Plasmid Information

**URL:** <http://www.addgene.org/21674>

**Proper Citation:** RRID:Addgene\_21674

**Insert Name:** LacZ

**Organism:** E. coli

**Bacterial Resistance:** Ampicillin

**Defining Citation:** [PMID:9343441](#)

**Vector Backbone Description:** Backbone Marker:W. Kramer; Backbone Size:0; Vector Backbone:Ted; Vector Types:centromeric plasmid; Bacterial Resistance:Ampicillin

**Comments:** Derived from Ted, a centromeric plasmid (provided by W. Kramer) marked by the URA3 gene. Contains two copies of the Escherichia coli lacZ gene in inverted orientation, with one copy containing an HO endonuclease cleavage site. Please note: Addgene was not able to sequence verify the critical features of this plasmid due to its repetitive nature.

**Plasmid Name:** pFP125

**Relevant Mutation:** The second lacZ sequence has been completely deleted, and there is no homologous sequence.

**Record Creation Time:** 20220422T222056+0000

**Record Last Update:** 20260815T081204+0000

---

### Ratings and Alerts

No rating or validation information has been found for pFP125.

No alerts have been found for pFP125.
