pDONR223-EPHB4

RRID:Addgene_23896

Type: Plasmid

Proper Citation

RRID:Addgene_23896

Plasmid Information

URL: <http://www.addgene.org/23896>

Proper Citation: RRID:Addgene_23896

Insert Name: EPHB4

Organism: Homo sapiens

Bacterial Resistance: Spectinomycin

Defining Citation: [PMID:21107320](#)

Vector Backbone Description: Backbone Marker:Invitrogen; Backbone Size:5005; Vector Backbone:pDONR223; Vector Types:Gateway Cloning; Bacterial Resistance:Spectinomycin

Comments: The ORF has no Stop codon. This design enables easy recombination into a destination vector to add an epitope tag of choice and Stop codon to the ORF. Do NOT use this plasmid directly for transfections. This plasmid was deposited as part of a Kinase ORFeome collection. The entire Kinase ORFeome collection has been generated by high throughput methods using RNA from different tissues and sources. It is possible that this is a tissue specific isoform. A set of 4 custom lentiviral vectors is available (pLX301 (<http://www.addgene.org/25895/>) , pLX302 (<http://www.addgene.org/25896/>) , pLX303 (<http://www.addgene.org/25897/>) , pLX304 (<http://www.addgene.org/25890/>)) to be used to express these ORFs in mammalian cells. These plasmids are not included in the kit and must be ordered separately.

Plasmid Name: pDONR223-EPHB4

Relevant Mutation: K162R

Record Creation Time: 20220422T222106+0000

Record Last Update: 20260815T081225+0000

Ratings and Alerts

No rating or validation information has been found for pDONR223-EPHB4.

No alerts have been found for pDONR223-EPHB4.
