pFastBac His6 MBP N10 TEV LIC cloning vector (4C)

RRID:Addgene_30116

Type: Plasmid

Proper Citation

RRID:Addgene_30116

Plasmid Information

URL: <http://www.addgene.org/30116>

Proper Citation: RRID:Addgene_30116

Bacterial Resistance: Ampicillin

Vector Backbone Description: Backbone Size:5976; Vector Backbone:pFastBac; Vector Types:Insect Expression; Bacterial Resistance:Ampicillin

Comments: This plasmid is a LIC-adapted pFastBac vector. It uses the same PCR primer tags as with most of our other vectors, so one PCR product can be inserted into many different vectors at once. This vector will add a His6-MBP-N10-TEV sequence to the N terminus of your protein. MBP may improve the solubility of your protein. Add the following tags to your PCR primers: LicV1 Forward Tag TACTTCCAATCCAATGCA LicV1 Reverse Tag TTATCCACTTCCAATGTTATTA Linearize this plasmid with SspI and gel purify the product, then T4-treat with dGTP. For the PCR product, T4-treat with dCTP. For more information, please see our website: <http://qb3.berkeley.edu/qb3/macrolab/>

Plasmid Name: pFastBac His6 MBP N10 TEV LIC cloning vector (4C)

Record Creation Time: 20220422T222132+0000

Record Last Update: 20260815T081322+0000

Ratings and Alerts

No rating or validation information has been found for pFastBac His6 MBP N10 TEV LIC cloning vector (4C).

No alerts have been found for pFastBac His6 MBP N10 TEV LIC cloning vector (4C).
