pCI-EGFP-NR2b wt

RRID:Addgene_45447

Type: Plasmid

Proper Citation

RRID:Addgene_45447

Plasmid Information

URL: <http://www.addgene.org/45447>

Proper Citation: RRID:Addgene_45447

Insert Name: NR2B

Organism: Rattus norvegicus

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:12160751](#)

Vector Backbone Description: Backbone Marker:Promega; Backbone Size:4006; Vector Backbone:pCI; Vector Types:Mammalian Expression; Bacterial Resistance:Ampicillin

Comments: Addgene Next-generation sequencing identified a sequence discrepancy that results in a Met to Leu change at position 745 in the plasmid insert, relative to Genbank IDs NM_012574.1 and NP_036706.1. The plasmid is expected to function as described in the associated publication.

Plasmid Name: pCI-EGFP-NR2b wt

Relevant Mutation: EGFP inserted after the predicted signal peptide cleavage site (after amino acid residue 31)

Record Creation Time: 20220422T222234+0000

Record Last Update: 20260815T081524+0000

Ratings and Alerts

No rating or validation information has been found for pCI-EGFP-NR2b wt.

No alerts have been found for pCI-EGFP-NR2b wt.

Data and Source Information
