pAC-aZEA

RRID:Addgene_53286

Type: Plasmid

Proper Citation

RRID:Addgene_53286

Plasmid Information

URL: <http://www.addgene.org/53286>

Proper Citation: RRID:Addgene_53286

Insert Name: lcyE

Organism: Arabidopsis thaliana

Bacterial Resistance: Chloramphenicol

Defining Citation: [PMID:17634749](#)

Vector Backbone Description: Backbone Marker:Francis X. Cunningham, Jr.; Backbone Size:11849; Vector Backbone:pAC-NEUR; Vector Types:low copy number bacterial cloning vector; Bacterial Resistance:Chloramphenicol

Comments: For better yield of low copy number pAC-based plasmids, grow liquid cultures on a platform shaker at ca. 30 degrees Celsius. When cultures reach early stationary phase, dilute 2-fold with growth medium, add spectinomycin (150 mg/liter), and "amplify" for several hours before harvest. For plasmid selection and maintenance in E. coli, use chloramphenicol at 30 mg/liter.

Plasmid Name: pAC-aZEA

Record Creation Time: 20220422T222312+0000

Record Last Update: 20260815T081629+0000

Ratings and Alerts

No rating or validation information has been found for pAC-aZEA.

No alerts have been found for pAC-aZEA.
