Proper Citation: CMFreg (RRID:SCR_000171)

Description: A sequence of fully automated voxel-wise rigid registration that utilizes stable structures of reference for assessment of craniofacial changes overtime. The major strengths of this method are that registration does not depend on the precision of the 3D surface models and that a stable structure of reference can be used without the simple best fit of all surfaces.

Abbreviations: CMFreg

Resource Type: data processing software, registration software, software resource, software application, image analysis software

Keywords: magnetic resonance

Availability: Free, Available for download, Freely available

Resource Name: CMFreg

Resource ID: SCR_000171

Alternate IDs: nlx_155534

License: 3D Slicer License

Record Creation Time: 20220129T080200+0000

Record Last Update: 20260805T044004+0000

Ratings and Alerts

No rating or validation information has been found for CMFreg.

No alerts have been found for CMFreg.
