Proper Citation: Teen-Longitudinal Assessment of Bariatric Surgery (RRID:SCR_001492)

Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on June 29,2023. Consortium made up of five clinical centers and a data coordinating center. The goal of Teen-LABS is to conduct clinical, epidemiological, and behavioral research in adolescent bariatric surgery, through an observational prospective study protocol. Teen-LABS is an ancillary study to LABS, an observational study of adult bariatric surgery. Research staff, certified in standardized uniform data collection according to the protocol, collect data at pre-operative research visits, at surgery, 30 days and six months post-operative, and annual post-operative research visits at the five participating centers.

Synonyms: Teen-LABS, Adolescent Bariatrics: Assessing Health Benefits and Risks, Teen-Longitudinal Assessment of Bariatric Surgery, Adolescent Bariatrics: Assessing Health Benefits and Risks (Teen-LABS)

Resource Type: consortium, organization portal, data or information resource, portal
