Proper Citation: International Committee on Taxonomy of Viruses (RRID:SCR_002377)

Description: International Committee on Taxonomy of Viruses (ICTV) is charged by the Virology Division of the International Union of Microbiological Societies (IUMS) with developing, refining, and maintaining the official, universal taxonomy of all viruses. The goal is to classify and name all known viruses into a single taxonomy that reflects their evolutionary relationships. It provides a variety of resources in support of that goal including online and downloadable versions of current and historical releases of the virus taxonomy.

Abbreviations: ICTV

Synonyms: Universal Virus Database, Virus Taxonomy: A community Knowledgebase Supporting Virus Research, Virus Taxonomy Knowledgebase

Resource Type: data or information resource, database

Defining Citation: [PMID:35999326](#), [PMID:39488803](#), [PMID:36780432](#), [PMID:28134265](#)

Keywords: virus taxonomy, virus, viruses, virology, virologists, database, classification, evolution, phylogenetics, disease

Funding: NIH/NIAID U24AI162625

Resource Name: International Committee on Taxonomy of Viruses

Resource ID: SCR_002377

Record Creation Time: 20220129T080213+0000

Record Last Update: 20260811T043142+0000

Ratings and Alerts

No rating or validation information has been found for International Committee on Taxonomy of Viruses.

No alerts have been found for International Committee on Taxonomy of Viruses.
