MRI Digital Projection System (RRID:SCR_002486)

Resource Information

URL: <http://www.pstnet.com/hardware.cfm?ID=90>

Proper Citation: MRI Digital Projection System (RRID:SCR_002486)

Description: MRI Digital Projection System that uses Digital Light Processing (DLP) technology providing microsecond pixel rise times, outstanding contrast with all-digital fiber optic control that allows you to project crystal clear, sharp images. Includes: * High resolution (1024x768) DLP Projector with RF filtered enclosure, custom lens assembly, digital video (DVI) over fiber, high flow fans, internal thermal sensor * Control room device to perform DVI to Fiber conversion, remotely power down the projector, and allow use of projector remote control from control room * 30 meter fiber optic cable that runs between the projector and projector control station * Heavy duty, magnet compatible, projector stand (assembly required) * Heavy duty, magnet compatible mirror stand with mirror (assembly required) * High resolution, lenticular pitch rear projection screen for high quality image reproduction * Optional VGA to DVI converter (native DVI video cards on Windows or Macintosh recommended)

Abbreviations: Hyperion

Synonyms: Hyperion MRI Digital Projection System

Resource Type: instrument resource

Keywords: experiment control, hardware, magnetic resonance, stimulus presentation, mri, projector, instrument, equipment

Availability: Restricted
