Proper Citation: Erasmus MC Department of Neuroscience (RRID:SCR_002737)

Description: The department of Neuroscience was founded in 2001, resulting from a merger between the Physiology and Anatomy department. In 2008, the BNT department joined forces. At present we consist of about 150 people. Our research is dedicated to Plasticity and Dynamics of Sensori-Motor Systems, which we investigate at the physiological, anatomical and molecular level in 18 different research groups. We have teaching responsibilities within the whole bachelor's phase of the medical curriculum at the Erasmus MC, teaching both basic anatomy and physiology, as well as neuroscience. The department hosts its own Master of Neuroscience program. The department of Neuroscience is embedded in the ONWAR, Helmholtz, and MGC research school

Synonyms: Neuroscience

Resource Type: university

Keywords: anatomical, anatomy, department, molecular, neuroscience, physiology

Availability: Free

Resource Name: Erasmus MC Department of Neuroscience

Resource ID: SCR_002737

Alternate IDs: nif-0000-24051

Record Creation Time: 20220129T080215+0000

Record Last Update: 20260801T190215+0000

Ratings and Alerts

No rating or validation information has been found for Erasmus MC Department of Neuroscience.

No alerts have been found for Erasmus MC Department of Neuroscience.
