Proper Citation: National Institute of General Medical Sciences: Research Funding (RRID:SCR_003096)

Description: NIGMS places great emphasis on the support of individual, investigator-initiated grants within its scientific mission areas. Most grants are for research projects (R01), but NIGMS also funds program projects (P01) as well as some research resources. The Institute encourages research in certain scientific areas through requests for applications and program announcements. This website has information for upcoming grants, minority grants as well as training opportunities in medical research in the following disciplines: cell biology, biophysics, genetics, developmental biology, pharmacology, physiology, biological chemistry, bioinformatics, and computational biology.

Abbreviations: NIGMS: Research Funding

Resource Type: funding resource

Keywords: apoptosis, neurogenetics, pharmacogenetics, pharmacogenomics, proteomics, structural genomics

Availability: Free, Freely available

Resource Name: National Institute of General Medical Sciences: Research Funding

Resource ID: SCR_003096

Alternate IDs: nif-0000-00547

Alternate URLs: <https://www.nigms.nih.gov/grants-and-funding>

Record Creation Time: 20220129T080217+0000

Ratings and Alerts

No rating or validation information has been found for National Institute of General Medical Sciences: Research Funding.

No alerts have been found for National Institute of General Medical Sciences: Research Funding.
