

# Resource Summary Report

Generated by RRID on Aug 12, 2026

## Syracuse University; Institute for Sensory Research

RRID:SCR\_003377

Type: Tool

### Proper Citation

Syracuse University; Institute for Sensory Research (RRID:SCR\_003377)

### Resource Information

**URL:** <http://www.isr.syr.edu/>

**Proper Citation:** Syracuse University; Institute for Sensory Research  
(RRID:SCR\_003377)

**Description:** The Institute for Sensory Research (ISR) defines itself as a world class research center dedicated to the discovery and application of knowledge of the sensory systems. Integration of engineering, life, and physical sciences, combining rigorous experimental methodology with mathematical analysis is stressed. Our multidisciplinary approach to bioengineering, sensory neuroscience, graduate, and undergraduate education, makes ISR a unique academic research center. At ISR, we study sensory systems, our gateways to the world. Our ears, eyes, skin, and mouth are channels through which we experience sound, light, texture, etc. These are functions that we usually take for granted until problems arise. Engineers, scientists, and students at ISR investigate both the basic sensory principles used by the brain, and also how the sensory systems can be best utilized, modified, and repaired if necessary to better communicate with our surroundings and with one another. In addition to basic research in hearing, touch, vision, and oro-facial biomechanics, recent projects include the design and testing of sensory-aid devices such as cochlear implants, hearing aids, ear protectors, and tactile aids for the visually and hearing impaired. Additional projects involve visual-depth perception, chewing and swallowing, oto-acoustic emissions, and personal care products such as oral rinses and skin lotions. Research \* Auditory \* Somatosensory \* Vision

**Abbreviations:** ISR

**Resource Type:** data or information resource, topical portal, portal

**Keywords:** cochlea model, auditory, somatosensory, vision, eye, ear, skin, mouth, sensory system

**Availability:** Free, Freely available

**Resource Name:** Syracuse University; Institute for Sensory Research

**Resource ID:** SCR\_003377

**Alternate IDs:** nif-0000-01969

**Alternate URLs:**
