Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on January 6, 2023. A machine learning toolbox written in Matlab and C that provides a general interface to support the integration of new statistical machine learning methods by writing high level wrappers. It allows complex methods to be built from simple building blocks and makes the use of cross-validation and permutation testing as easy as writing one line of Matlab code. The code requires at least Matlab distribution 7.6.0.324 (R2008a).
