Proper Citation: Alcohol and Alcohol Problems Science Database (RRID:SCR_003768)

Description: Portal to support researchers and practitioners searching for information related to alcohol research including links to a number of databases, journals, and Web sites focused on alcohol research and related topics. Also included is a link to the archived ETOH database, the premier Alcohol and Alcohol Problems Science Database, which contains over 130,000 records and covers the period from 1972 through 2003. Included in ETOH are abstracts and bibliographic references to journal articles, books, dissertation abstracts, conference papers and proceedings, reports and studies, and chapters in edited works. ETOH's scope reflects the multidisciplinary nature of the alcohol research field. The range of subject areas contained in ETOH includes: medicine, biochemistry, psychology, psychiatry, epidemiology, sociology, anthropology, treatment, prevention, education, accidents and safety, legislation, criminal justice, public policy, and health services research. The ETOH database is indexed with vocabulary from the Alcohol and Other Drug Thesaurus: A Guide to Concepts and Terminology in Substance Abuse and Addiction (AOD Thesaurus), Third Edition. More than 5,000 terms in the AOD Thesaurus are used as ETOH descriptors. The Databases/Resources section includes databases and resources for alcohol researchers and practitioners. It includes an introduction to the National Library of Medicine's PubMed and some sample searches on alcohol to run in the PubMed database; descriptions of and links to the various databases of the National Clearinghouse for Alcohol and Drug Information (NCADI); a selection of alcohol and other drug databases with their descriptions and links; links to peer-reviewed journals most often used by alcohol researchers; and links to a selection of Web sites pertinent to the substance abuse field.
