Description: Consortium to act as a forum for the diversity of stakeholders in the implementation of electronic health systems. It comprises a dedicated forum where decision makers, implementers, professionals, patients and other stakeholders can share visions, experiences and good practices on how to establish interoperable eHealth services. The process of consensus-building has reached six main achievements. # Offering support to European decision-makers with regard to EU level actions on eHealth. # Enlarging active representation of EU and European Free Trade Association (EFTA) activities. CALLIOPE established a roster of 22 national members in 2010 # Enlarging active involvement of European eHealth stakeholder organizations. # Developing and validating an open working method among stakeholders # Creating a working collaboration method between the appropriate eHealth large-scale pilot(s) and a wider range of Member States & and stakeholders CALLEpSO collaboration # Building an eHealth Interoperability roadmapping process. A full iterative cycle of the Roadmapping process has been now completed and the second issue of the EU eHealth Interoperability Roadmap has been delivered.
