Proper Citation: SHared Access Research Ecosystem (RRID:SCR_004125)

Description: A higher education and research community initiative to ensure the preservation of, access to, and reuse of research outputs. SHARE will develop solutions that capitalize on the compelling interest shared by researchers, libraries, universities, funding agencies, and other key stakeholders to maximize research impact, today and in the future. SHARE aims to make the inventory of research assets more discoverable and more accessible, and to enable the research community to build upon these assets in creative and productive ways. ARL, AAU, and APLU strongly believe that ensuring broad and continuing access to research is central to the mission of higher education. Research publications, research data, other research outputs, along with their associated metadata, should be publicly accessible and available for reuse, text mining, data mining, and machine reading. This accelerates further research and discovery.

Abbreviations: SHARE

Synonyms: SHared Access Research Ecosystem (SHARE)

Resource Type: data or information resource, community building portal, portal

Keywords: library, data preservation, data access, data reuse, data sharing, metadata

Funding: Institute of Museum and Library Services ;
Alfred P. Sloan Foundation

Resource Name: SHared Access Research Ecosystem

Resource ID: SCR_004125

Alternate IDs: nlx_158608

Record Creation Time: 20220129T080222+0000

Record Last Update: 20260813T054855+0000

Ratings and Alerts

No rating or validation information has been found for SHared Access Research Ecosystem.
