Type: Tool

Proper Citation

Network Science (RRID:SCR_004459)

Resource Information

URL: <http://www.netsci.org/>

Proper Citation: Network Science (RRID:SCR_004459)

Description: Scientific focus articles and general resources for scientists within the pharmaceutical and biotechnology industries that take a comprehensive look at the industry and the tools that are in use to speed drug discovery and development. Resources include a forum, courseware, and a listing of professional societies, associations and companies/organizations. In addition to features on classical drug discovery, NetSci will address biotechnology, genomic research, and materials design as well as subjects suggested by readers. Network Science has collected an extensive list of professional societies and associations and companies/organizations that are a part of the world-wide efforts in drug discovery and development. These organizations were selected based upon the fact that they contribute to pharmaceutical research and development and healthcare throughout the world. The forum for experts to explore and discuss current applications of science and technology with their colleagues world-wide, permits publication of scientific data without the delays inherent in traditional printed media and encourages immediate dialog using hypertext (a contextual linkage of related information sources), multimedia, interactive electronic feedback forms, and automatic electronic mail connections which are not available within any other media. CourseWare provides a collection of materials which examine the pharmaceutical industry and the use of technology in drug discovery. Topics range from an introduction to the drug development process to an in-depth examination of the tools and techniques used in pharmaceutical research and development. If you would like to see a topic added to this collection, or know about companies and products that you feel would be of interest to the readers, would like to add your organization to the list or correct the listing that is on-line, please contact us.

Abbreviations: NetSci

Synonyms: Network Science - NetSci

Resource Type: topical portal, portal, data or information resource, data set, narrative resource

Keywords: pharmaceutical, therapeutic agent, drug discovery, drug, drug development, pharmaceutical research, forum, biotechnology, genomic research, materials design, biotechnology, pharmaceutic, cheminformatics, combinatorial chemistry, computational chemistry, screening, lims, chemistry

Funding: Novartis ;
Apple Computer ;
Silicon Graphics ;
Molecular Solutions

Availability: For personal use only. No redistribution is allowed without written permission from Network Science Corporation., The community can contribute to this resource

Resource Name: Network Science

Resource ID: SCR_004459

Alternate IDs: nlx_45289

Record Creation Time: 20220129T080224+0000

Record Last Update: 20260815T182248+0000

Ratings and Alerts

No rating or validation information has been found for Network Science.

No alerts have been found for Network Science.
