Proper Citation: Institute of Computational Linguistics (RRID:SCR_004501)

Description: ILC-CNR has been one of the major promoters of the notion of language resources as the central component of the linguistic infrastructure (aware also of its cultural, economical and political implications), has coordinated the major initiatives relating to language resources and standardization and has often been the promoter of new paradigms in the field. ILC-CNR has coordinated numerous international, European and national strategic initiatives and projects. ILC-CNR has designed and built several types of corpora and lexicons and the respective ontologies, has developed a complete chain of tools for a robust processing of the Italian language, for the acquisition of information from corpora and for word-sense disambiguation and has developed technologies for several application domains (question answering, information retrieval, text mining, monolingual and multilingual terminology extraction, ontology acquisition and structuring, summarisation, filtering of Web documents, preservation of the cultural heritage through digital image processing and digital libraries techniques etc.). The research fields of the Institute are: Models and methods for natural language processing, and mono- and multilingual application prototypes. Design of international standards and development of computational language resources. Design and implementation of architectures and infrastructures for language resources and language technologies. Computational methods and tools for humanistic research, particularly in linguistic, literary, and philological disciplines, and in lexicography.

Abbreviations: ILC

Synonyms: ILC-CNR, Istituto di Linguistica Computazionale Antonio Zampolli, Istituto di Linguistica Computazionale

Resource Type: data or information resource, portal, organization portal

Resource Name: Institute of Computational Linguistics

Resource ID: SCR_004501

Alternate IDs: nlx_48409

Record Creation Time: 20220129T080224+0000

Record Last Update: 20260812T044058+0000
