Proper Citation: NeuroDevNet (RRID:SCR_004925)

Description: NeuroDevNet, a Canadian Network of Centres of Excellence (NCE), is dedicated to helping children overcome neurodevelopmental disorders. Network investigators seek to understand the causes of neurological deficits, and to transfer this knowledge to health care professionals, policy makers, and communities of interest. NeuroDevNet works with its partners in academia, the community, not-for-profit sector, industry, and government, and across traditional disciplinary boundaries and sectors, to ensure generated knowledge is translated into tangible diagnostic, preventative, therapeutic, social, economic, and health benefits for all. NeuroDevNet supports transformative research, provides training to build a new generation of Canadian researchers, strengthens communities with the right tools and information, and translates research findings into early diagnostic, preventative, and therapeutic strategies for children with neurological disorders to live healthier lives. Currently, the network's research focuses on autism spectrum disorder, cerebral palsy, and fetal alcohol spectrum disorder. These demonstration projects are supported by NeuroDevNet's central infrastructure and cores, including Neuroethics, Neuroinformatics, and Knowledge Translation.

Abbreviations: NeuroDevNet

Resource Type: data or information resource, organization portal, portal

Funding: Networks of Centres of Excellence of Canada

Resource Name: NeuroDevNet

Resource ID: SCR_004925

Alternate IDs: nlx_88813, grid.429756.b

Alternate URLs: <https://ror.org/04r0s0t24>

Record Creation Time: 20220129T080227+0000

Record Last Update: 20260905T133040+0000

Ratings and Alerts

No rating or validation information has been found for NeuroDevNet.

No alerts have been found for NeuroDevNet.
