# **UniPROBE**

RRID:SCR\_005803 Type: Tool

**Proper Citation** 

UniPROBE (RRID:SCR\_005803)

## **Resource Information**

URL: <a href="http://the\_brain.bwh.harvard.edu/uniprobe/">http://the\_brain.bwh.harvard.edu/uniprobe/</a>

Proper Citation: UniPROBE (RRID:SCR\_005803)

**Description:** Database that hosts experimental data from universal protein binding microarray (PBM) experiments (Berger et al., 2006) and their accompanying statistical analyses from prokaryotic and eukaryotic organisms, malarial parasites, yeast, worms, mouse, and human. It provides a centralized resource for accessing comprehensive data on the preferences of proteins for all possible sequence variants ("words") of length k ("k-mers"), as well as position weight matrix (PWM) and graphical sequence logo representations of the k-mer data. The database's web tools include a text-based search, a function for assessing motif similarity between user-entered data and database PWMs, and a function for locating putative binding sites along user-entered nucleotide sequences.

#### Abbreviations: UniPROBE

**Synonyms:** UniPROBE Database, Universal Protein Binding Microarray Resource for Oligonucleotide Binding Evaluation, Universal PBM Resource for Oligonucleotide Binding Evaluation

Resource Type: database, data or information resource

Defining Citation: PMID:21037262, PMID:18842628

**Keywords:** protein, in vitro, dna binding, protein binding, genetics, dna, nucleotide sequence, sequence variant, k-mer, position weight matrix, graphical sequence logo, motif, motif similarity, binding site, microarray, protein-dna interaction, protein binding microarray probe sequence, probe, FASEB list
