EU Clinical Trials Register

RRID:SCR_005956

Type: Tool

Proper Citation

EU Clinical Trials Register (RRID:SCR_005956)

Resource Information

URL: <https://www.clinicaltrialsregister.eu>

Proper Citation: EU Clinical Trials Register (RRID:SCR_005956)

Description: Database of European clinical trials containing information on interventional clinical trials on medicines. The information available dates from 1 May 2004 when national medicine regulatory authorities began populating the EudraCT database, the application that is used by national medicine regulatory authorities to enter clinical trial data. The EU Clinical Trials Register website launched on 22 March 2011 enables users to search for information which has been included in the EudraCT database. Users are able to: * view the description of a phase II-IV adult clinical trial where the investigator sites are in European Union member states and the European Economic Area; * view the description of any pediatric clinical trial with investigator sites in the European Union and any trials which form part of a pediatric investigation plan (PIP) including those where the investigator sites are outside the European Union. * download up to 20 results (per request) in a text file (.txt). The details in the clinical trial description include: * the design of the trial; * the sponsor; * the investigational medicine (trade name or active substance identification); * the therapeutic areas; * the status (authorized, ongoing, complete).

Synonyms: Clinicaltrialsregister.eu, European Union Clinical Trials Register, clinical trials register

Resource Type: data or information resource, database

Keywords: clinical trial, clinical, drug, pediatric, adult human, child, medicine, intervention, FASEB list

Availability: Public

Resource Name: EU Clinical Trials Register

Resource ID: SCR_005956

Alternate IDs: nlx_151313
