### Resource Information

**URL:** <http://db-mml.sjtu.edu.cn/ICEberg/>

**Proper Citation:** ICEberg (RRID:SCR\_006026)

**Description:** ICEberg is an integrated database that provides comprehensive information about integrative and conjugative elements (ICEs) found in bacteria. ICEs are conjugative self-transmissible elements that can integrate into and excise from a host chromosome. An ICE contains three typical modules, integration and excision, conjugation, and regulation modules, that collectively promote vertical inheritance and periodic lateral gene flow. Many ICEs carry likely virulence determinants, antibiotic-resistant factors and/or genes coding for other beneficial traits. ICEberg offers a unique, highly organized, readily explorable archive of both predicted and experimentally supported ICE-relevant data. It currently contains details of 428 ICEs found in representatives of 124 bacterial species, and a collection of >400 directly related references. A broad range of similarity search, sequence alignment, genome context browser, phylogenetic and other functional analysis tools are readily accessible via ICEberg. ICEberg will facilitate efficient, multidisciplinary and innovative exploration of bacterial ICEs and be of particular interest to researchers in the broad fields of prokaryotic evolution, pathogenesis, biotechnology and metabolism. The ICEberg database will be maintained, updated and improved regularly to ensure its ongoing maximum utility to the research community.

**Abbreviations:** ICEberg

**Synonyms:** ICEberg: a web-based resource for integrative and conjugative elements found in Bacteria

**Resource Type:** data analysis service, database, data or information resource, analysis service resource, production service resource, service resource

**Defining Citation:** [PMID:22009673](https://pubmed.ncbi.nlm.nih.gov/22009673/)

**Keywords:** dna, protein, sequence, chromosome, element, gene, similarity search, sequence alignment, genome, phylogenetic, functional analysis, bio.tools, FASEB list

**Funding:** National Natural Science Foundation of China 973 program 2009CB118901;  
National Natural Science Foundation of China 973 program 2012CB721002;  
National Natural Science Foundation of China 863 program 2011BAD23B05-3;  
Ministry of Science and Technology China ;  
Ministry of Education China NCET-10-0572;  
Shanghai Jiaotong University ;  
Shanghai Municipality ;  
Action Medical Research SP4255;  
Innovation Fellowship ;  
East Midlands Development Agency

**Resource Name:** ICEberg

**Resource ID:** SCR\_006026

**Alternate IDs:** nlx\_151424, biotools:iceberg

**Alternate URLs:** <https://bio.tools/iceberg>

**Record Creation Time:** 20220129T080233+0000

**Record Last Update:** 20250417T065238+0000
