ISRCTN Registry

RRID:SCR_006087

Type: Tool

Proper Citation

ISRCTN Registry (RRID:SCR_006087)

Resource Information

URL: <http://www.isrctn.com>

Proper Citation: ISRCTN Registry (RRID:SCR_006087)

Description: A primary clinical trial registry which houses proposed, ongoing, and completed clinical research studies. An ISRCTN is a simple numeric system for the unique identification of randomized controlled trials worldwide. The registry provides content validation and curation and the unique identification number necessary for publication. Submitted studies range from cancer to urological diseases.

Synonyms: International Standard Randomised Controlled Trial Number Registry, International Standard Randomized Controlled Trial Number Register

Resource Type: narrative resource, standard specification, international standard specification, database, data or information resource

Keywords: clinical trial, unique identifier, observational trial, interventional trial, health, registry, clinical, trial, FASEB list

Funding: Department of Health UK ;
Medical Research Council ;
Wellcome Trust ;
Canadian Institutes of Health Research

Availability: Public

Resource Name: ISRCTN Registry

Resource ID: SCR_006087

Alternate IDs: nlx_151501, r3d100013307
