Proper Citation: CreZOO (RRID:SCR_006132)

Description: The CreZOO database is the European virtual repository of Cre and other targeted conditional driver strains. CreZOO is being developed in the context of the CREATE consortium, a core of major European and international mouse database holders and research groups involved in conditional mutagenesis. Its aim is to capture and disseminate extant and new information on Cre driver strains. CreZOO also aims to contribute data to the CREATE portal for worldwide access of related information. All transgenic strains carry detailed information on the promoter, specificity (using Adult Mouse Anatomy terms and Theiler Stages) and expressed gene(s) including IDs and direct links where available. Allele details are also presented, in addition to strain, background and availability (in the form of live mice, cryopreserved embryos or sperm etc) information (including EMMA, MGI, MMRRC etc hyperlinks where available). Handling and genotyping details (in the form of documents or hyperlinks) together with all relevant publications are clearly presented with PMID(s) and direct PubMed links.

Abbreviations: CreZOO

Resource Type: biomaterial supply resource, material resource, organism supplier

Defining Citation: [PMID:22730454](#)

Keywords: cre, gene expression, mouse model, gene function, disease pathology, cre driver strain, cre driver, strain, promoter, allele, inducibility, expression pattern, live mouse, embryo, sperm, embryonic stem cell, promoter, gene, allele

Funding: European Union FP7 FP7-HEALTH-2007-223487-CREATE

Availability: Database access is free of charge and there are no registration requirements for data querying.

Resource Name: CreZOO

Resource ID: SCR_006132

Alternate IDs: nlx_151616

Record Creation Time: 20220129T080234+0000

Record Last Update: 20260804T043254+0000

Ratings and Alerts

No rating or validation information has been found for CreZOO.

No alerts have been found for CreZOO.
