mitopred

RRID:SCR_006135 Type: Tool

Proper Citation

mitopred (RRID:SCR_006135)

Resource Information

URL: http://bioapps.rit.albany.edu/MITOPRED/

Proper Citation: mitopred (RRID:SCR_006135)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented on July 16, 2013. It predicts nuclear-encoded mitochondrial proteins from all eukaryotic species including plants. Prediction is based on the occurrence patterns of Pfam domains (version 16.0) in different cellular locations, amino acid composition and pl value differences between mitochondrial and non-mitochondrial locations. Additionally, you may download MITOPRED predictions for complete proteomes. Re-calculated predictions are instantly accessible for proteomes of Saccharomyces cerevisiae, Caenorhabditis elegans, Drosophila, Homo sapiens, Mus musculus and Arabidopsis species as well as all the eukaryotic sequences in the Swiss-Prot and TrEMBL databases. Queries, at different confidence levels, can be made through four distinct options: (i) entering Swiss-Prot/TrEMBL accession numbers; (ii) uploading a local file with such accession numbers; (iii) entering protein sequences; (iv) uploading a local file containing protein sequences in FASTA format. The Mitopred algorithm works based on the differences in the Pfam domain occurrence patters and amino acid composition differences in different cellular compartments. Location specific Pfam domains have been determined from the entire eukaryotic set of Swissprot database. Similarly, differences in the amino acid composition between mitochondrial and non-mitochondrial sequences were pre-calculated. This information is used to calculate location-specific amino acid weights that are used to calculate amino acid score. Similarly, pl average values of the N-terminal 25 residues in different cellular location were also determined. This knowledgebase is accessed by the program during execution.

Abbreviations: MITOPRED

Synonyms: A genome-scale method for predicting mitochondrial proteins

Resource Type: production service resource, data analysis service, service resource, analysis service resource

Keywords: yeast, c. elegans, drosophila, mouse, human, arabidopsis, bio.tools

Funding:

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: mitopred

Resource ID: SCR_006135

Alternate IDs: biotools:mitopred, nif-0000-03956, BioTools:mitopred

Alternate URLs: https://bio.tools/mitopred, https://bio.tools/mitopred, https://bio.tools/mitopred

Record Creation Time: 20220129T080234+0000

Record Last Update: 20250517T055738+0000

Ratings and Alerts

No rating or validation information has been found for mitopred.

No alerts have been found for mitopred.
