Open Annotation Collaboration

RRID:SCR_006376

Type: Tool

Proper Citation

Open Annotation Collaboration (RRID:SCR_006376)

Resource Information

URL: <http://www.openannotation.org/>

Proper Citation: Open Annotation Collaboration (RRID:SCR_006376)

Description: The Open Annotation Collaboration project aims to facilitate the emergence of a Web and Resource-centric interoperable annotation environment that allows leveraging annotations across the boundaries of annotation clients, annotation servers, and content collections. To this end, interoperability specifications will be devised. Additionally, this project will demonstrate through implementations an interoperable annotation environment enabled by the interoperability specifications in settings characterized by a variety of annotation client/server environments, content collections, and scholarly use cases and will seed widespread adoption by deploying robust, production-quality applications conformant with the interoperable annotation environment in ubiquitous and specialized services, tools, and content used by scholars -- e.g.: Zotero, AXE, LORE, Co-Annotea, Pliny; JSTOR, AustLit, MONK. Alpha3 Data Model: The Open Annotation Data Model specifies an approach for associating annotations with resources, using a methodology conformant with the Architecture of the World Wide Web and the Linked Data initiative. It draws on the Annotea model, as well as more recent extensions of that model.

Abbreviations: OAC

Resource Type: data or information resource, topical portal, portal, knowledge environment

Resource Name: Open Annotation Collaboration

Resource ID: SCR_006376

Alternate IDs: nif-0000-00029

Record Creation Time: 20220129T080235+0000

Record Last Update: 20260812T044119+0000

Ratings and Alerts

No rating or validation information has been found for Open Annotation Collaboration.

No alerts have been found for Open Annotation Collaboration.
