Proper Citation: Atlas of Living Australia (RRID:SCR_006467)

Description: Online repository of information about Australian plants, animals, and fungi. Development started in 2006. The Commonwealth Scientific and Industrial Research Organisation is organisation significantly involved in development of ALA.

Abbreviations: ALA

Resource Type: data or information resource, database

Keywords: data sharing, biodiversity, image, photograph, dna, conservation, natural resource, literature, nomenclature, australia, morphology, life stage, stage, behavior, reproduction, habitat, genetic, region, species, portal, data set, data analysis service, metadata standard, web service, image collection, FASEB list
