Proper Citation: Open Access and the developing world (RRID:SCR_006672)

Description: Free, immediate and permanent online access to the full text of all articles published within its portfolio of over 200 peer-reviewed journals, and through its open access waiver fund, ensuring that scientific authors in low-income countries do not face financial barriers to publishing in open access journals. Open access provides a way for researchers from low-income countries to participate more fully in the international research community, and so BioMed Central has created a set of initiatives designed to increase the visibility and output of scientific research from these countries.
