Proper Citation: Institute for Neural Computation (RRID:SCR_008068)

Description: The Institute for Neural Computation (INC) is an organized research unit of the University of California at San Diego with 44 members representing 14 research disciplines, devoted to the research and development of a new generation of massively parallel computers through a coherent and cohesive plan of research spanning the areas of neuroscience, visual science, cognitive science, artificial intelligence, mathematics, economics and social science, and computer engineering. INC is a leading center in the field of neural computation, initiating joint research projects, providing special facilities for carrying out research, coordinating the training of young investigators, and offering special activities through its Industrial Affiliates Program. The INC also supports training programs for graduate students and postdoctoral fellows in Cognitive Neuroscience (NIH) and Computational Neurobiology (NFS).

Synonyms: UCSD INC

Resource Type: institution

Keywords: economics, artificial intelligence, cognitive neuroscience, cognitive science, computational neurobiology, computer engineering, mathematics, neuroscience, parallel computer, social science, visual science

Resource Name: Institute for Neural Computation

Resource ID: SCR_008068

Alternate IDs: nif-0000-10510

Record Creation Time: 20220129T080245+0000

Record Last Update: 20260801T190337+0000

Ratings and Alerts

No rating or validation information has been found for Institute for Neural Computation.

No alerts have been found for Institute for Neural Computation.
