Functional Brain Mapping Lab

RRID:SCR_008582
Type: Tool

Proper Citation

Functional Brain Mapping Lab (RRID:SCR_008582)

Resource Information

URL: http://brainmapping.unige.ch

Proper Citation: Functional Brain Mapping Lab (RRID:SCR_008582)

Description: Our principal research interest is the organization and the dynamics of the large-scale neuronal networks of the brain that characterize mental functions, and the understanding of disturbances of these networks in patients with brain dysfunctions. Electromagnetic imaging based on high-resolution EEG is our principal instrument to study these questions. It is combined with Transcranial Magnetic Stimulation (TMS), Functional Magnetic Resonance Imaging (fMRI), and multichannel intracranial recordings in patients. Sponsors: Swiss National Science Foundation Fondation Louis Jeantet de Mdecine Fondation Leenards

Synonyms: FBM Lab

Resource Type: laboratory portal, portal, organization portal, data or information resource

Funding:

Resource Name: Functional Brain Mapping Lab

Resource ID: SCR_008582

Alternate IDs: nif-0000-31886

Record Creation Time: 20220129T080248+0000

Record Last Update: 20250417T065333+0000

Ratings and Alerts

No rating or validation information has been found for Functional Brain Mapping Lab.

No alerts have been found for Functional Brain Mapping Lab.
