BrainBrowser

RRID:SCR_009535

Type: Tool

Proper Citation

BrainBrowser (RRID:SCR_009535)

Resource Information

URL: http://brainbrowser.cbrain.mcgill.ca

Proper Citation: BrainBrowser (RRID:SCR_009535)

Description: A web-enabled brain surface viewer that allows the user to explore in real time a 3D brain map expressed on a base surface. BrainBrowser has two modes of operation, exploring either a pre-calculated database of structural correlation maps or working with user-defined data. In this mode, the user may choose to explore the correlation structure for cortical thickness, cortical area or cortical volume, or any other pre-calculated metric. In the second mode, the user is prompted for the local filenames of the statistical map and the base surface. BrainBrowser can also be used to manipulate 3D fibre pathways derived from DTI, using the same simple file format (.obj) as for surface data. BrainBrowser on Youtube: http://www.youtube.com/watch?v=HIRTUYUf1Ew NOTE: BrainBrowser requires a WebGL-enabled browser such as Google Chrome to support its 3D graphics capability.

Abbreviations: BrainBrowser

Resource Type: data or information resource, data analysis service, service resource, data set, analysis service resource, production service resource

Keywords: image display, javascript, minc2, magnetic resonance, nifti, os independent, rendering, ruby, surface rendering, three dimensional display, two dimensional display, visualization, volume rendering, 3d visualization, neuroimaging, fmri, web application, web resource, data visualization service

Funding:

Availability: Free

Resource Name: BrainBrowser

Resource ID: SCR_009535

Alternate IDs: nlx_155710

Alternate URLs: http://www.nitrc.org/projects/brainbrowser

Record Creation Time: 20220129T080253+0000

Record Last Update: 20250521T061304+0000

Ratings and Alerts

No rating or validation information has been found for BrainBrowser.

No alerts have been found for BrainBrowser.
